

iSectors® Inflation Protection Allocation

iSectors® Inflation Protection Allocation is a strategic model for investors seeking investments that historically have responded favorably during periods of inflation.

Portfolio Description

Recent market developments underscore the importance of following the evergreen principle of "being prepared". Prudent investment planning suggests constructing a portfolio that will meet your goals over a range of possible scenarios. While its impossible to know with certainty how damaging inflation will be in your future, being prepared for the full range of possibilities can make sense. Inflation may very well be the leading threat to an investor's portfolio, as inflation reduces the purchasing power

of your investments. Therefore, to maintain your standard of living, your investments must earn a rate of return that, at a minimum, keeps pace with the rate of inflation. Given the current economic conditions, particularly the growing size of the U.S. debt and increased spending, historical precedence suggests that future inflationary pressures may be on the horizon. With a diversified core strategic portfolio of inflation-protected bonds, commodities, precious metals, international currencies, and other investments that historically have been resistant to inflationary pressures, the iSectors® Inflation Protection Allocation offers investors a tool with which to prepare their portfolios for the possibility of inflation.

Fees

Asset Management and Platform fee: 0.45% of assets under management. Fees are assessed pro rata at the beginning of each calendar quarter based upon assets under management at the end of the previous quarter. Minimum investment in the iSectors® Inflation Protection Allocation is \$25,000. Investment amounts greater than \$500,000 in any single account may qualify for reduced platform fees.

Custody and Trading fees: Vary by custodian. Fidelity or Pershing charge a fixed annualized \$150 fee per account regardless of account size or number of transactions. Custody and trading fees at Schwab are 0.10% (10 bps) of assets under management with a \$200 annual minimum.

Advisory fee: iSectors Allocations are only available through independent registered investment advisors. Advisors will apply additional fees for the services they provide.

About The Manager:

iSectors® has developed and provides a comprehensive suite of 21 proprietary Exchange Traded Fund (ETF)–based asset allocation models and services. Collectively, the iSectors web-based platform and series of asset allocation models offer advisors and their clients a broad selection of strategies, services and support to assist them in building and managing an appropriate investment solution designed to achieve a client’s financial objectives.

Allocation models are categorized by risk and return characteristics and organized into four unique series of asset allocation approaches: Domestic, Institutional, Endowment, and Post-MPT Series. Also offered are Liquid Alternatives, Tactical International, Inflation Protection and Capital Preservation allocation models.

iSectors® ETF-based portfolios are low-cost, liquid, and provide complete transparency. All assets are held in separately managed accounts titled in the client’s name. Investors are fully supported by their independent registered investment advisor (RIA) and a team of back-office service professionals.
