Important Disclosure

iSectors® is a series of proprietary asset allocation models and services. iSectors®, LLC is an affiliate of Sumnicht & Associates, LLC (Sumnicht) and, as such, iSectors® and Sumnicht share certain employees' services. iSectors became registered as an investment advisor in August 2008. iSectors® Allocation Portfolios are only available through registered investment advisors. iSectors® is a registered trademark of Sumnicht Holdings, LLC.

The contents of this presentation are for informational purposes only. This is neither an offer nor a solicitation to buy and/or sell securities. Information pertaining to iSectors' advisory operations, services, and fees is set forth in its current disclosure statements (Form ADV Part II and Schedule F), a copy of which is available upon request.

iSectors' Allocation Portfolios are not guaranteed and involve risk of loss. At any given point in time, the value of an iSectors® Asset Allocation portfolio may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors) will be either suitable or profitable for a client's or prospective client's portfolio.

Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance will be profitable, or equal either the performance results reflected or any corresponding historical index. The historical index performance results are provided exclusively for comparison purposes only, so as to provide general comparative information to assist an individual client or prospective client in determining whether the performance of a specific investment meets, or continues to meet, investment objective(s). It should not be assumed that any account holdings will correspond directly to any comparative index. The performance results do not reflect the impact of taxes.

Performance results for the iSectors model(s) presented for the corresponding time periods noted are actual composite results of iSectors accounts managed under each respective model. Results reflect the reinvestment of dividends and other account earnings, do not reflect the impact of taxes, and have been reduced by the maximum estimated costs of transaction, custodial, platform and investment management fees as follows:

0.60% for Endowment, Inflation Protection, Liquid Alternatives, Post-MPT and Tactical International Models;
0.50% for Institutional Models; and,
0.40% for Capital Preservation and Domestic Models.

Fee calculation is based upon accounts equal to or greater than the recommended minimum $100,000 investment using custodians that charge a $150 annual fee.

iSectors' annualized sponsor fee is comprised of the asset management fee and the platform fee. Sponsor fee is based on assets under management. Fees are paid pro rata quarterly in advance. For reasons including variances in portfolio account holdings, market fluctuation, the date on which a client engaged iSectors' services, regular model rebalancing and/or updates, and timing of account contributions and withdrawals, the underlying fees of a specific client's account may vary from these estimates. The fee charged by account custodians for custody and trading for each iSectors account will vary, depending upon the custodian selected. iSectors investment allocations are only available through registered investment advisors, who will charge an additional fee for their advisory services.

Index performance results are compiled directly by each respective index and/or obtained by iSectors from other reliable sources, and have not been independently verified by iSectors.

You should not assume that any discussion or information contained in this presentation serves as the receipt of, or as a substitute for, personalized investment advice from an investment professional.

This presentation has not been reviewed, submitted for review before, or otherwise approved by FINRA, the SEC or any state or provincial securities administrator.
