

## iSectors<sup>®</sup> Tactical Global Balanced Allocation

The objective of iSectors<sup>®</sup> Tactical Global Balanced Allocation is to seek modest growth of capital while attempting to avoid large portfolio draw downs (losses) through the implementation of a tactical strategy across a globally diversified portfolio of major asset classes.

### Portfolio Description

The iSectors<sup>®</sup> Tactical Global Balanced Allocation offers a comprehensive investment approach diversified across major global asset classes, including Domestic Equities, International and Emerging Market Equities, Bonds, Commodities, Gold and Real Estate. The model actively manages the investments within the portfolio, utilizing a trend following methodology to allocate among the model's targeted asset classes and to cash (or short-term bonds). This model's objective is to be in 100% cash during prolonged declines in individual asset classes to reduce overall portfolio draw down. The iSectors<sup>®</sup> Tactical Global Balanced model seeks to invest in index exchange-traded funds (ETFs) to achieve its objectives.

### Tactical Global Balanced Quick Facts

As of 12/31/2020

Portfolio Type	Tactical
Account Minimum	\$25,000
Portfolio Inception	2011
ETF Holdings <sup>1</sup>	8
Management Fee	0.50%
Current Yield <sup>2</sup>	1.60%

### The Need For A Smarter Investing Strategy

Extraordinary market volatility has challenged many static allocation portfolios over the past decade. This has caused investors to sell at inopportune times and/or avoid investing altogether. The iSectors<sup>®</sup> Tactical Global Balanced portfolio seeks to help investors match their need for growth with their desire for a lower-volatility portfolio. iSectors' research shows that investors may reduce portfolio volatility by selectively avoiding asset classes that are currently out of favor. In those instances, investors are often better served

by holding cash. iSectors applies a systematic, trend-following approach to each of the asset classes in the portfolio. Using this objective algorithm, the model systematically invests in those asset classes which offer the potential for favorable returns while avoiding those asset classes that are in potentially protracted declines. The quantitative model is reviewed and reallocated on a monthly basis.

### Target Allocation<sup>1</sup> (as of 12/31/2020)

Note: The model is analyzed and rebalanced monthly. Therefore, the current allocation may be the same or different than indicated above.

<sup>1</sup>The sample target allocation/holdings information is as of 12/31/2020 and should not be considered a recommendation to buy or sell a particular security. There is no assurance that any specific securities listed will remain a part of the model. <sup>2</sup>An indication of the expected dividends and interest based on the holdings and market value of the portfolio as of 12/31/2020. An investment in any iSectors<sup>®</sup> allocation model is not guaranteed and, at any given time, may be worth more or less than the amount invested. All quick facts data obtained from 'Quick Facts' table on Envestnet Manager Console.

## About The Manager:

iSectors®, LLC manages a suite of exchange-traded fund (ETF)-based asset allocation models. Collectively, the iSectors web-based platform and series of asset allocation models offer advisors and their clients a broad selection of strategies, services and support to assist them in building and managing an appropriate investment solution designed to achieve a client's financial objectives.

Allocation models are categorized by risk and return characteristics and organized into three unique series of asset allocation approaches: Global Allocations (5 risk-based models), 2 Post-MPT Allocations and a Tactical Allocation model. Also offered are Capital Preservation, Domestic Equity, Domestic Fixed Income, Endowment Allocation, Inflation Protection, Liquid Alternatives, and Precious Metals allocation models.

iSectors® ETF-based portfolios are low-cost (when compared to most actively-managed mutual funds), offer intraday liquidity, and provide transparency with respect to model holdings. All assets are held in separately or unified managed accounts titled in the client's name. Investors are fully supported by their independent registered investment advisor (RIA) and a team of back-office service professionals.

iSectors, LLC is an affiliate of Sumnicht & Associates, LLC (Sumnicht) and, as such, iSectors and Sumnicht share certain employees' services. Sumnicht & Associates was founded in 1988. iSectors became a separate Registered Investment Advisor in August, 2008.
