

iSectors® Global Growth Allocation

Portfolio Description

The objective of iSectors® Global Growth Allocation model is to provide capital growth from equities with a 20-25% allocation to fixed income to reduce risk. The equity portion of the portfolio is allocated among a diversified basket of domestic and international low-cost equity index-based exchange-traded funds (ETFs). In addition, fundamentally-weighted, dividend-focused index ETFs are used in an effort to enhance return and reduce volatility. The fixed income portion of the portfolio is diversified across a range of low-cost exchange-traded funds ETFs. The core of the fixed income portion of the portfolio holds domestic and international government, investment grade corporate, and mortgage-backed bonds with various maturities. The remainder of the fixed income portfolio is invested in ETFs that hold non-investment grade fixed income securities and high-yield bonds in an effort to add diversification and the potential for increased returns. The portfolio is intended for investors with a somewhat aggressive risk utility who are willing to accept greater volatility in exchange for potentially greater returns and a long-term time horizon.

¹The sample target allocation/holdings information is as of 3/31/2021 and should not be considered a recommendation to buy or sell a particular security. There is no assurance that any specific securities listed will remain a part of the model. ²An indication of the expected dividends and interest based on the holdings and market value of the portfolio as of 3/31/2021. Yields will fluctuate daily and current or past performance is no guarantee of future results. An investment in any iSectors® allocation model is not guaranteed and, at any given time, may be worth more or less than the amount invested. All quick facts data obtained from 'Quick Facts' table on Envestnet Manager Console.

About The Manager:

iSectors®, LLC manages a suite of exchange-traded fund (ETF)-based asset allocation models. Collectively, the iSectors web-based platform and series of asset allocation models offer advisors and their clients a broad selection of strategies, services and support to assist them in building and managing an appropriate investment solution designed to achieve a client's financial objectives.

Allocation models are categorized by risk and return characteristics and organized into three unique series of asset allocation approaches: Global Allocations (5 risk-based models), 2 Post-MPT Allocations and a Tactical Allocation model. Also offered are Capital Preservation, Domestic Equity, Domestic Fixed Income, Endowment Allocation, Inflation Protection, Liquid Alternatives, and Precious Metals allocation models.

iSectors® ETF-based portfolios are low-cost (when compared to most actively-managed mutual funds), offer intraday liquidity, and provide transparency with respect to model holdings. All assets are held in separately or unified managed accounts titled in the client's name. Investors are fully supported by their independent registered investment advisor (RIA) and a team of back-office service professionals.

iSectors, LLC is an affiliate of Sumnicht & Associates, LLC (Sumnicht) and, as such, iSectors and Sumnicht share certain employees' services. Sumnicht & Associates was founded in 1988. iSectors became a separate Registered Investment Advisor in August, 2008.

Index Definitions

Barclays Capital Aggregate Bond Index is an unmanaged market value-weighted index representing securities that are SEC-registered, taxable, and dollar denominated. This index covers the U.S. investment grade fixed rate bond market, with index components for a combination of the Barclays Capital government and corporate securities, mortgage-backed pass-through securities, and asset-backed securities.

S&P 500 Index Total Return Index is an unmanaged, capitalization-weighted index of 500 large-capitalization common stocks actively traded in the United States. The total return index measures both price and dividend performance of the underlying equities in the index.

Information pertaining to iSectors advisory operations, services and fees is set forth in its current disclosure statements (Form ADV, Part 2 Brochure), a copy of which is available upon request.

iSectors' Allocation models are not guaranteed and involve risk of loss. At any given point in time, the value of an iSectors® asset allocation model may be worth more or less than the amount invested. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments and/or investment strategies devised or undertaken by iSectors) will be either suitable or profitable for a client's or prospective client's portfolio. Asset allocation and diversification concepts do not ensure a profit nor protect against loss in a declining market.
